Pipestone County Single Stream Recycling

Dear Pipestone County Resident,

Single Stream recycling is finally here! Pipestone County is happy to provide you with a new recycling bin for the conversion to single stream recycling. Single stream recycling means that all your recyclable materials are able to be put into the same bin without sorting.

The County has contracted with Van Dyke Sanitation who will be collecting your recyclable materials curbside every other week, beginning December 1st. Please help us make this program a success by utilizing your curbside service. Enclosed for your convenience is a refrigerator magnet with the collection schedule, and a recycling guide.

Please follow these rules when using your new Single Stream Recycling bin:

1. Please ensure that all recyclable items are placed inside the bin. (Any items left on the ground will not be picked up.)
2. Only recyclables are allowed in the bin. If your bin contains non-recyclable items your bin will not be picked up. (NOTE: Styrofoam is NOT Recyclable)
3. It is your responsibility to place the bin on the curb the evening prior to or before 6 a.m. on collection day. (If your bin is not set out on time, it may be missed and will not be picked up until the next collection date.)
4. When placing your bin out for pickup, please place it with the front of the container facing the road and in an area free from vehicles and obstacles.

Please contact VanDyke Sanitation at 507-442-7241 with any questions. Additional information or resources can be found on the Pipestone County website: www.pipestone-county.com

Thank you for your cooperation,

Happy Recycling!!
